Profile Summary

Computer Science undergraduate at KIIT with a strong interest in Full Stack Web Development using the MERN stack. Proficient in developing responsive web applications using React.js and JavaScript, with foundational knowledge of Node.js, Express.js, and MongoDB. Strong understanding of Data Structures and Algorithms, Object-Oriented Programming, DBMS, and Computer Networks. Passionate about building scalable web applications and continuously enhancing software development skills.

Education

Kalinga Institute of Industrial Technology (KIIT)

B.Tech in Computer Science — CGPA: 8.87

2023 – 2027

Bhubaneswar, Odisha

Saraswati Sishu Vidya Mandir

Class 12th — 79.5%

2023

Odisha

DAV Public School

Class 10th — 93%

2021

Odisha

Technical Skills

Programming Languages: C++, JavaScript

Frontend Technologies: HTML, CSS, React.js, Vite, Tailwind CSS, SCSS

Backend Technologies: Node.js, Express.js

Database: MongoDB

Tools & Platforms: Git, GitHub, Docker, VS Code, Postman

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Computer Networks, REST APIs

Areas of Interest: Full Stack Web Development, MERN Stack

Projects

MacOS Portfolio | *React, Vite, SCSS, Xterm.js, React-RND*

2026

- Live Demo: [View Project](#)
- Developed a macOS-inspired portfolio website featuring draggable windows and a desktop-like user interface.
- Integrated an interactive terminal using Xterm.js along with Spotify, Notes (Markdown), and Resume applications.
- Implemented reusable React components and responsive UI using React, Vite, SCSS, and React-RND.

Weather App | *HTML, CSS, JavaScript, OpenWeather API*

2026

- Live Demo: [View Project](#)
- Developed a responsive weather application using the OpenWeather API to fetch real-time weather information.
- Implemented city-based search to display live temperature, humidity, wind speed, and weather conditions.
- Utilized asynchronous JavaScript and Fetch API for dynamic data retrieval and updates.

Tic Tac Toe Game | *React, Vite, Tailwind CSS*

2026

- Project Link: [GitHub Repository](#)
- Built a responsive Tic Tac Toe game using React functional components and Hooks.
- Implemented winner detection, draw logic, game reset functionality, and state management using `useState`.
- Designed a clean and responsive user interface using Tailwind CSS.

Position of Responsibility

Thales Hackathon

November 2025

Team Leader, Tech Blenders

KIIT University

- Led a multidisciplinary team to design and develop an innovative technology-based solution during the Thales Hackathon.
- Coordinated task allocation, project planning, and collaboration to meet project deadlines.
- Presented the final solution to the judging panel, demonstrating leadership and communication skills.

Internship

Skill Nexis

July 2026 – August 2026

Full Stack Developer Intern (MERN Stack)

Virtual

- Working on full-stack web development projects using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Developing responsive web applications and integrating RESTful APIs following industry-standard practices.
- Collaborating on assigned tasks, debugging applications, and improving problem-solving skills through hands-on project development.
